DISORDERS OF THE STOMACH. DYSPEPSIA.

This disease seems to affect nearly the enthe chief the second to affect nearly the chief the human family. It affects persons in different ways. Dyspepsia is simply indigestion, or want of power to convert food into chyle, from which the blood is mainly derived. The process of digestion may be more or less obstructed for years by improper food, want of exercise, overwork, care, depression, and other causes, before care, depression and other causes, before the marked symptoms of the disease mani-fest themselves. At length follow the irregular appetite, discomfort before or after eating, rising of food, eructations, gastric eating, rising of lood, eructations, gastric irritability, costiveness or diarrhoea, pains in the chest, pains in the limbs, pains in the head, restlessness, loss of fiesh, debility, mental depression, palpitation, dizziness, suffication and nearly every discomfort known to mortals. The cause not being known or suspected, the sufferer is doctored for symptoms by this, that, and the other medicine, till, dying a thousand miserable deaths by the disease and drugs, he finally looks for no relief and gives up to a miserable existence. Such being the nature of this disease and so persistent and serious in its effects upon both body and mind, how essential that one skilled in the treatment of it should be sought at once and have the disease thoroughly eradicated and the system restored o health, which can be done by the powerful common sense treatment as practiced by Dr. Woods. No charge for advice.

GREAT DEMAND FOR STEEL RAILS

Herr's Island Live Stock Markets--

Cattle a Shade Lower.

NOTES.

OFFICE OF PITTSBURG DISPATCH, MONDAY, June 17, 1889. There were few encouraging features i the markets. Supplies were heavy and demand was light. It was difficult to find an optimistic drover at Herr's Island. All re-ported hard markets. The situation was entire-

ly in buyers' favor in all departments. Cattle. Drovers report a difficulty getting their own out of Chicago cattle. A small margin is left for such stock as is adapted to our markets, vir, smooth, light butcher cattle; but for those

of other grades there has been a loss to the dealer this week. The cattle dealer who comes out even on this week's transactions has done well. Some report losses. Weather has been adverse to trade, and Chicago cattle dealers are too high in their ideas for any profits in this market. There were barely sufficient sales to establish last week's

range of prices.

A Diamond Market butcher reports pur A Diamond Market butcher reports purchases of 2 head weighing 1.150 to 1.275, at \$4 25, for which \$4 40 would have been the price a week ago. Three of those bought were held over from last week, and \$4 50 was then offered and refused for them. Choice heavy beeves weighing 1.500 to 1.600 pounds are quoted at \$4 80 to \$4 90; medium weights, 1.200 to 1.400, \$4 55 to \$4 70; prime light weights, 900 to 1.100, \$3 95 to \$4 25; common to fair thin and rough steers, \$3 20 to \$3 50. Fresh cows were in the usual supply and demand; prices, \$22 00 to \$3 80 per head. The best milkers were held at \$45 00. Calves were slow at a range of \$3\cdot ct over pound. Bulls and dry cows, \$c to 3\cdot ct over pound. at \$45 00. Calves were slow at a range of \$25 to be per pound. Bulls and dry cows, &c to 325 per pound. Sheep and Lambs

Supply was greatly in excess of demand and markets were far from satisfactory. Following was the range of prices, but these figures were established by bona fide sales only as regards yearlings and spring lambs: Best Ohio and Pennsylvania wethers, \$4 25@4 50; medium to good, \$3 75@4 00; common to fair, \$3 00@3 50; yearlings, \$4 25@5 25; spring lambs, 43@66@c. Light supply and demand. Butchers are buying ver/ lightly. Prices given were \$4 50@4 75. Receipts from Ohio-J. Langdon, 5 head: F. Cruikshank, 5; Needy & Smith, 186. From Pennsylvaniz-J. Reiber, 10 head. Total, 206 head; last week, 163; previous week, 294. Braddock Booming.

The Edgar Thomson Steel Works turned out their largest run of rails on Friday, the lith. The total product of steel rails for that day was 1,055 tons. This product was placed on Monongahela river barges ready for shipment westward on Saturday. There is only one plant in the world that has greater capacity for teel rails than that at Braddock. At Barrow n the North of England a single company has

880 or more, there is still a comfortable margin lett. A well posted operator in steel expresses the opinion that steel rails can be made at Brad-dock for \$20 per ton or less. There is little use in small plants trying to compete with such a mammoth institution as the Edgar Thomson

in this day of narrow margins,

Wheat Nervous and Lower All Round Longs Sell Freely on the Brenk-Corn and Oats Featureless-More Life in Hog

Products. CHICAGO. - A large speculative busines was again transacted in wheat to-day, with higher prices and an unsettled, nervous feeling. There was considerable realizing, and the outside prices were not sustained; in fact, the closing was considerably lower than Saturday. The opening was very strong, and prices showed an advance of %@lc for the various futures, but after some slight fluctuations be-came weak, and a decline of 2c was recorded for July and 134c for other deliveries, closing 34c lower for July, 34c lower for August, 36c

lower for September, and %c lower for Decem-ber than closing figures of Saturday. The early advance was attributed to the same causes which have affected the market the past few days, namely, wet weather in the winter wheat districts and dry in the Northwest. Storms in Ohio and Indiana were reported as having done damage to wheat. Shorts covered quite freely, and the demand was principally from this source. The ad-vance, however, induced longs to sell freely, and there was quite heavy realizing. Some large lines were closed out. This created an easier feeling. Then advices were received reporting a break of 10c fh cash at St. Louis. Cables also were less favorable to holders.

The weather bulletin, too, showed light rain at Bismarck. This assisted the tendency to lower Corn ruled quiet and inactive the greater part of the session. The fluctuations were within narrow limits and trading confined almost exclusively to room operators. The feeling early was comparatively firm, due largely to the stronger tone of wheat, but later ruled easier, influenced by very fair estimates for to-

Oats were fairly active and 1/61/2c higher. The advance brought in liberal selling orders, and a quieter and weaker feeling developed and all the early advance was lost, the market closing at slightly below the prices of Satur-

lay.

The market for lard attracted very little attention. Prices exhibited very little change. Trading was only moderately active in the market for short rib sides. The feeling was figurer and prices favored sallers.

TALKS ON BUSINESS

STORY OF A JOHNSTOWN DOG.

The American Churn Laid in the Shade by a South American Invention.

BROKERS PUT UP ON THE ELECTION.

The day upon which general elections are held are legal holidays in New York and some other States, but not in Pennsylvania. An attempt was made in the Legislature last winter to enact such a law, but it failed. The Exchange and banks will transact business as usual to-day.

Pittsburg is again below St. Louis and San Francisco in the matter of bank clearings. I called the attention of a Wood street cashier to this circumstance yesterday. He said: "I am not surprised. The calamity through which we are passing accounts for it. They have had nothing to interrupt their prosperity. They will not remain above us very long. We have been gaining on them for several years, and the time has about arrived when we will take precedence of them permanently. We would have passed St. Louis long ago had it not been for

her large speculative interest." Mr. Hampton Houghton, of the Pennsylvania Railroad, told me of an incident that occurred at Johnstown on Tuesday, which is worth repeating. The big dynamite explosion there in the afternoon of that day, forced open the door of one of the wrecked houses, releasing a large black dog, which had been imprisoned for nearly two weeks. He at once scampered off to the ills, but was pursued and captured by two boys. A lively competition for his possession as a relic of the flood immediately sprung up. One man bid \$5, another \$10 and another \$25 all of which the youngsters refused. A Pittsburg man named Burns then offered \$50, which was accepted and the dog was turned over to him. He was very thin, as a result of his long fast, but soon demonstrated his ability and

willingness to make up for lost time. I saw a woman manipulating an old-fashioned churn in one of the suburbs a few days ago. It was hard work, and she frequently stopped to note the result of her labor and to ascertain if the butter had "come." This reminded me of the statement of a traveler in South America, to the effect that the dairyman of that country pours the milk, warm from the cow, into an inflated pig or goat skin, hitches it to his saddle by a long lasso and gallops five or six miles into town with the milk sack pounding along on the road behind him. When be reaches the city his churning is over, the butter is made and he peddles it from door to door, dipping out the quantity desired by each family

with a long wooden spoon. This is a labor-saving invention worthy of a Yankee. In the absence of business at the Stock Exchange yesterday, there was considerable talk regarding the outcome of to-day's election. Both sides were represented among the brokers and each faction seemed willing to back up their opinions with hard cash. As a result of the disputation several wagers were made, the largest being \$50 on 40,000 against the amendment, 1 was told that a prominent Pro-hibitionist in the city had several hundred dol-

I noticed yesterday that work on the four new bank buildings—those of the National Bank of Commerce, the German National, the Keystone and the Marine—is progressing as fast as possible, considering the heavy work and the unfavorable state of the weather. The foundations of the two first named are well upder way. Each will be of stone, eight stories high and highly finished inside and out. The other two will be scarcely less imposing and ornate. All of them will be creditable to the city and add materially to its architectural

beauty in the eyes of citizens and strangers. I see that Sheriff McCandless has made a contribution to the business literature of the day. It is a plain statement of legal involvements, of special interest only to the characters introduced, not likely to make much of an impression upon the reading public. The rapid subsidence of the popularity of literary produc-tions of this kind is conclusive proof of an im-

provement in the taste and circumstances of EXPLORER. FAIL TO RALLY.

Stocks Begin the Week Without a Change for the Better. The stock market yesterday was of the listless sort with which the Pittsburg public has become familiar within the past few weeks. Three stocks were traded in to the amount of 270 shares. Philadelphia Gas sold in the morning at 36% and 38%. In the after-noon it went in a small way at 38%. The weak-ness was attributed to a tip that the next dividend would be at the rate of 8 per cent per annum. Pittsburg Traction brought 52% and Citizens' 69. Pleasant Valley Passenger Rail-way could have been bought for 200, and Pittsway could have been bought for 200, and Pitts-burg, Allegheny and Manchester for 260. There was a bid of 17 for People's Natural Gas and Pipeage Company. Nothing was done in Elec-tric. The best bid for it was 50½; it was held at 53% and 53%. La Noria was steady at 1½ which price was offered for 100 shares buyer 30. It was thought that the proposed new deal of Westinghouse Electric Company, notice of which has been sent to the stockholders, imply-ing, as supposed, a consolidation of all the electrical interests of the company, if carried out, would result in giving the stock a boom. The firmness with which it has been held under conditions considered discouraging by out-

onditions considered discouraging by out-siders, may have come from a knowledge by holders of large blocks of the proposed con-solidation of interests and management, in-creasing the revenue and cutting down ex-penses. FINANCES COMING UP. Clearing House Figures Show a Gain Over

Same Day Last Week. All of the leading banks reported an improve-ment in discounting and checking yesterday— not very great, but sufficient to demonstrate that business is recovering from the depression of the past two weeks. Rates were reported steady at 5½@6 per cent, showing a hardening tendency. Currency was said to be rather scarce, and supplies may have to be drawn from New York. The exchanges were \$2.562.403 39 and the balances \$315,818-34, showing a gain in exchanges over the same day last week of \$323,450 04. of \$23,450 04.

Money on call at New York yesterday was easy at 262% per cent; last loan, 2% per cent; closed offered at 2% per cent. Prime mercantile paper, 3%265%. Sterling exchange dull, but steady, at \$4 87 for 60-day bills, and \$4 88% for decrease.

AN OFT TOLD TALE. The Oil Market Continues Firm, With Moderate Business, The oil market was firm yesterday, and trad-

The oil market was firm yesterday, and trading was of fair proportions, considering that it was entirely professional. It opened at 83%, % under Saturday's closing. In a short time, under the influence of free offers, it dropped to 83, at which price McKelvy bought 50,000 barrels. The market hung around these figures until late in the afternoon, when it advanced to 84, the highest point of the day. It then weakened and closed at 83%—% better than the opening—with indications of about the same range of prices to-day. Saturday's clearings were 240,000 barrels. Monday's Oll Range.

Rumored Brenk in the Inter-State Railway Association Causes a Slump in the Granger Stocks-Part of the Early Losses Recovered. New York, June 17.—The stock market was fairly active to-day, with a still greater propor-tion of business done in the regular list than has been seen for months, the trusts, with the exception of National Lead, being quiet to dull without feature. The heavy withdrawal of gold for export to Europe on Saturday was supplemented by the news late in the day of the withdrawal of the Chicago and Alton from

the Inter-State Railway Association, and this

the withdrawal of the Chicago and Alton from the Inter-State Railway Association, and this morning we were treated to the information that the action would in all probability disrupt the association, and other news of a discouraging tenor.

As a consequence the Granger stocks were made the subjects of great pressure to sell, especially from the smaller class of traders, and before the end of the first half hour's business the declines, especially in Rock Island and St. Paul, were extended to nearly 2 per cent. The effect upon the general list was very marked, and every stock traded in opened off fractionally, though outside of the Grangers only Missouli Pacific showed any marked decline. The buying, however, was of a good quality and the cliques supported their favorites while London was a buyer to a limited extent, and commission people were purchasing cautiously. Chicago sold the Grangers freely on the situation, and the stocks of that group dropped materially. After the first hour, however, there was a check to the decline in the general list and the excitement died out and the market relapsed into duliness except for the few leading shares.

The signing of the bill giving the New England terminal facilities in New York started that stock up rapidly, followed by St. Paul, though the improvement in the inst named was smaller soon came to an end. Later, however, Atchison joined in the upward novement, and toward delivery hour there was a sudden spurt in the coalers which infused strength in the entire list. Jersey Central and Delaware and Hudson were most conspicuous for strength, but Reading was not far behind, and the trading in the last named stocks became very heavy. The market finally closed quiet but decidedly strong at the best prices of the day for almost everything except the Grangers. The final changes are somewhat irregular, but the advances are most numerous, and while St. Paul and Rock Island each closed 1½ per cent.

Raliroad bonds showed no change in their temper from that of the past week, and total sales for the day were \$1,651,000, of which only the Kansas and Texas general 6s showed any special animation, furnishing \$229,000. St. Paul, Hamiiton and Dayton 7s rose 2 to 129; Kentucky Central 4s to 85%; Minneapolis and St. Louis 1sts 8, to 160.

—Notwithstanding the flattering reports sent out from Dakota relative to the anticipated abundant yield of small grain, advices received from a good portion of Western and South Dakota state that small grain is an entire failure, more so than any in other years. The grain is all burned up. Fully half of the acreage is sown to wheat and dats. Corn does not yet show the effects of the drouth. Among the farming community this failure will be sorely felt. -Policeman Bart went to the Mayor's office —Policeman Hart went to the Mayor's office at South Oklahoma Saturday afternoon and began abusing the Mayor. He was locked up by Marshal McKee and Policeman Howard after a desperate resistance. When McKee and Howard returned to the Mayor's office, Policeman Mattox, a friend of Hart, opened fire on them with a Winchester. McKee was slightly wounded in the abdomen and Howard seriously in the hips. After he was shot, Howard shot Mattox through the lungs, fatally wounding him.

Upon their failing to return at night searching parties were organized, and last Friday evening their bones were found near a ledge of rocks that had long been known as Wolf's Den. A band of timber wolves have used this section for years, and it is thought the children were killed and eaten by the animals. The hoys were aged 10 and 12 years.

—In the northern part of Tuscaloosa county, Ala, the citizens have undertaken to break up a number of illioit distilleries and capture the men engaged in the business. For a year or more that part of the State has been overrun with moonshiners who finally grew so bold they carried on their business almost openly, and became a terror, not only to revenue officers, but to all law-abiding citizens. Finding peaceable and lawful means unavailing, the citizens met and organized themselves into a rigilance committee. They have notified the rigiance committee. They have notified the moonshiners that they may expect no quarter. The latter are well armed and determined to resist to the death, and a bloody local feed is sure to result. Revenue officers have gone to the scene of threatened trouble.

On Friday evening of this week the commencement exercises proper of Curry University will take place at the Grand Opera House, preceded on Tuesday evening by the piano contest, on Wednesday by class night, and on Thursday by the elocutionary contest. Then, on Monday, the 24th, the annual excursion of students, faculty and friends to Rock Point via Pittsburg, Fort Wayne and Chicago Railway will occur. Elaborate programmes for commencement week are already out. A Hold-Over Democrat.

A STARTLING FACT. The diseases of the kidneys and urinary organs are much more common than are generally supposed. Beginning by a weakness in the back, accompanied by pain, which at first may be so slight as to cause little or no inconvenience to the persons afflicted, still as the disease progresses there are presented a chain of symptoms which eventually lead to graver difficulties; there is an increased pain in the small of the back and in the region of the groins, high colored urine with brickdust sediment, scanty or coplous flow, with frequent desire and pain in voiding it. Not only do the organs themselves become organically diseased, terminating in gravel or stone in the bladder, diabetes or Bright's disease, often ending in that most fatal condition, convulsive ureamia, but are one of the most potent causes of rheumatism and dropsy. The physicians of the Polypathic Institute also treat successfully all forms of skin and blood diseases; also clubfoot, tumors, rupture, ulcers, varicose veins, piles and deformities.

Please remember that the physicians of the the Polypathic Institute are not travelling doctors, but are permanently located. They have been established in Pittsburg for nearly one year, and hundreds testify to cures received.
